## *Amazing Science in the King James Bible*

### *Fact #83*

#### **Human Conscience** (*Romans 2:14-15*)

The Bible reveals that God has impressed His moral law onto every human heart. *Con* means with and *science* means knowledge. We know it is wrong to murder, lie, steal, etc. Only the Bible explains that each human has a God-given knowledge of right and wrong.

### *Fact #84*

#### **Soil Conservation** (*Leviticus 23:22*)

Not only was the land to lay fallow every seventh year, but God also instructed farmers to leave the gleanings when reaping their fields, and not to reap the corners (sides) of their fields. This served several purposes: 1, vital soil minerals would be maintained. 2, the hedge row would limit wind erosion. 3, the poor could eat the gleanings. Today, approximately four billion metric tons of soil are lost from US crops lands each year. Much of this soil depletion could be avoided if God's commands were followed.

## *Christian Gentleman's Handbook*

A gentleman will hand his hymnbook to someone without one.

A gentleman will assist visitors and make them feel welcome.
