"One cannot be exposed to the law and order of the universe without concluding that there must be design and purpose behind it all... To be forced to believe only one conclusion- that everything in the universe happened by chance- would violate the very objectivity of science itself.... They (evolutionists) challenge science to prove the existence of God. But must we really light a candle to see the sun? It is in scientific honesty that I endorse the presentation of alternative theories for the origin of the universe, life and man in the science classroom. It would be an error to overlook the possibility that the universe was planned rather than happening by chance."

The Perfect Pastor

After hundreds of years, a model preacher has been found to suit everyone. He preaches exactly 20 minutes and then sits down. He condemns sin, but never hurts anyone's feelings.

He works from 8 a.m. to 10 p.m. in every type of work from preaching to custodial service. He gives \$60 a week to the church. He also stands ready to contribute to every good work that comes along.

He is 26-years-old and has been preaching for 30 years. He is tall and short, thin, heavyset, and handsome. He has one brown eye and one blue, hair parted down the middle, left side dark and straight, the right brown and wavy. He has a burning desire to work with teenagers, and spends all his time with older folks. He smiles all the time with a straight face because he has a sense of humor that keeps him seriously dedicated to his work.

He makes 15 calls a day on church members, spends all his time evangelizing the unchurched, and is never out of his office.
