**The Test of a Nation**

Roger Babson, the famed statistician and writer on finance, said:

"The test of a nation is the growth of its people intellectually and spiritually. Money and so-called prosperity are of very little account. Babylon, Persia, Greece, Rome, and Spain all had their turns in being the richest nations in the world. Then they declined. Instead of saving them, their wealth proved to be their ruin.

Our nation is now the richest nation, but it could easily become a second-class nation and head downward!"

How impoverished a nation is if it gains the world in space explorations or riches and loses its soul!

**Daniel Webster said:**

"If religious literature is not widely circulated among the masses in this country, I do not know what is to become of us as a nation. And the thought is one to cause solemn reflection on the part of every patriot.

If truth is not diffused, error will be. If God and His Word are not known and received, the devil and his works will gain the ascendancy. If the evangelical volume does not reach every hamlet, the pages of a corrupt and licentious literature will.

If the power of the gospel is not felt through the length and breadth of the land, anarchy and misrule, degradation and misery, corruption and darkness will reign without mitigation or end."
