PRAYER REQUESTS

- Madilenne's Visa Application to be approved
- Madilenne's procedure at the hospital on November 18
- Kumiane Church to grow and be faithful while we are away
- To be able to return to PNG soon!

To our praying friends,

Thank you for keeping up with us while we progress through our time in the US.

I would like to report some answers to prayer. Thank you for taking these things to God. He has been so gracious with us! First, we have a social security card for Madilenne! Second, all of our passport renewals are back in our hands, as well. It was awesome to finally have some of these things checked off the list.

Please continue to pray for our medical equipment that was shipped to PNG. I'm waiting for confirmation that it has arrived, but we also won't be able to get back to PNG until the end of winter. This means that I need to work out storage, or work up a plan to move it out of the place where it was shipped. This is a simple logistical request, but we still would appreciate prayer.

We have had a few more churches take us on for support. We are so happy to see God meeting our projected needs for future ministry in PNG. God has had us in some churches these past few months that have been such a blessing to us. When we go in, we are intending to exhort and encourage the brethren, but these last few meetings, we have been loved on and cared for. God has been so good.

Thank you to those who have given to our vehicle need. We have about \$7,000 raised and we need another \$8,000. We appreciate so much the giving towards this. I'm amazed and encouraged that God is still bringing those funds in. This has been our most expensive year ever with Madi, and asking for another \$15,000 seemed like too much. God has been providing it, knowing that it's a need. If you wish to give to this you can contact me, or just send the money to our support address. Please just mark it for Dye Vehicle Fund so that it goes to the right place.

Please keep Madi in your prayers. We found out a few months ago that she has hip dysplasia, and her hip kept coming out of joint. She had to undergo a procedure to put her hip back in place. They use a body cast called a SPICA cast. This is the reason why we now have to stay longer in the USA. She will wear the cast till the end of January, and then she will need some follow up afterwards to make sure the joint has healed properly. It was an aggravating decision to make, knowing that it would delay us from going back to the field, but it was also an easy trigger to pull, knowing that Madi will be better for having this procedure done. It has been interesting moving her around, or having to carry her with this reduced mobility. We also had to get a new car seat to accommodate her cast. Through all of this, she has maintained a good spirit, and is a happy baby. We are very thankful for that!

On November 18, she will be going into the hospital for the doctor to check her hip joint, and she will be getting a fresh cast. She will be under anesthesia and with her CAH this means there is a little extra care that needs to happen.

We love you all, we thank you, and we appreciate your prayers for us. I'm always amazed at how God takes care of our family, and I know that a lot of that has to do with your faithful intercession for our family. Thank you!
