A sobering fact about American children: 60% of all children in America 12 years of age and under have never been inside of a church.

The Engel vs. Vitale decision of the Supreme Court on June 25, 1962 banned children from praying in the public schools. For 45 years children have not been encouraged to pray to God. (Except for a few days after massacres!)

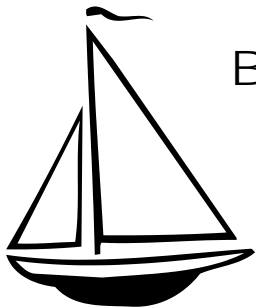

The Abington Township School District vs. Schempp decision of June 13, 1963 banned Bible reading in public schools. For 44 years children **have not heard God's Holy Word read in class rooms.** (Except when disparaged by a secular humanist teacher.)

10 years after these decisions, abortion was legalized and since then (January 1973) 45,000,000 abortions have been performed on little boys and girls while still in the womb. Only 1% of them had to do with incest or rape. 99% were just "choices."
