Amazing Science
in the King James Bible

Fact #91

Water Distillation

(Deuteronomy 32:2; Job 36:28)

The same water that is in pond scum and sewage today, we drink tomorrow. Water can neither be created nor destroyed. It just keeps recirculating. The same water people drank thousands of years ago we still have today. Yet when it rains, it is distilled water and safe to drink. During evaporation impurities are left behind.

Fact #92

Anesthesia

(Genesis 2:21)

In order to operate on the body it must be put into a deep sleep. Almost to the point of death (Dr. Michael Caesar). This is so the body doesn't move during any procedure. God set this example when He performed the first surgery.
