A Thot for Parents

Never ask your children if something good (like church) was fun. Ask them, "What did you learn?" Then build on it.

Teacher Tips

A number of years ago a John Hopkins University professor asked his graduate students to locate 200 boys, ages 12-16, and research their backgrounds. The assignment then was to predict the future of these boys. The students were sent to the slum area of the city to find the boys. The conclusion reached by the graduate students was that 90% of those researched would spend time in jail.

Some 25 years later, John Hopkins University sent the researchers into the slum area again. They were able to locate 180 of the original 200. What they found amazed them. Only four had ever been to jail!

When the researchers began to ask this question they found that they were getting the same answer, "Well, there was this teacher..."

The graduate students traced down the teacher, now living in a retirement home, and inquired about her remarkable influence over a group of boys who were headed for a life of crime. She really could not think of any reason why she would have this kind of influence. She did mention that "... she truly loved her students."

What is the difference between a good teacher and a great teacher? One word... love!

Gentlemen

by Dr. George Alquist, Jr

A gentleman does not send personal letters on company stationery.

A gentleman knocks before entering another person's office, even if the door is open.
