The longer I live, the more I realize the impact of *Attitude* on life. *Attitude*, to me is more important than the past, than education, than money, than circumstances, than failures, than successes, than what other people think, say or do. It is more important than appearance, giftedness or skill. It will break a company, a church, a home. The remarkable thing is we have a choice everyday regarding the *Attitude* we embrace for that day. We cannot change our past. We can not change the fact people will act a certain way. We can not change the inevitable. The only thing we can do is play the one string we have, and that is our *Attitude*. I am convinced that life is 10% what happens to me and 90% how I react to it. And so it is with you. You are in charge of your *Attitude*. You are the one with the capacity to choose what that *Attitude* will me. No one else.

The clock of life is wound but once,
And no man has the power
To tell just when the hands will stop
At late or early hour.

To lose one's wealth is sad indeed,
To lose one's health is more.
To lose one's soul is such a loss
That no one can restore.

A Shot for Parents

"We first disconnected cable subscription, thereby reduced viewing time. After that, we realized we would benefit from eliminating the TV altogether, especially with the commercials aired during an otherwise decent program. We find that the time is better used because the children play together more. My wife and I communicate more and better now that we do not have the television to capture our attention. Our children are also now ignorant of the current trends and shows, for which we are grateful. The children play together more and better."
