## Too much saving!

Salesman: "Ma'am, you can buy this home freezer for what you will save on your food bills!"

Housewife: "Yes, but we are buying our car on the bus fares we save, our washing machine on the laundromat bills we save, and our house on the rent money we save. We just can't afford to save any more right now."

Don't know what to do with that old Bible? "Love Packages" accepts and redistributes any Bibles that are still readable. Send yours to:

## Water Cycle

Ninety-seven percent of the Earth's water is in the oceans. But on our earth, there is a system designed which removes salt from the water and then distributes that water throughout the globe. Evaporation takes the ocean waters, leaving the salt, and forms clouds, which are easily moved by the wind to disperse water over the land for vegetation, animals, and people. It is a system of purification and supply that sustains life on this planet, a system of recycled and reused water. - Mark Cahill  
*Pastor's note:* The hydrological cycle is implied in Ecclesiastes 1:7, and distillation is mentioned in Deut. 32:2 and Job 36:28

If this is your first time with us, we hope you have received your welcome gift! Please fill out the blue info card and place it in the offering plate, or hand to any usher on your way out. Thanks for joining us.
