Best Methods of Bible Study

- Dr. Frank Charles Thompson

Adopt some systematic method. The haphazard reading of a few verses of the Scriptures every day is better than nothing, but it is not real Bible study. It is simply nibbling at the truth; strong Christians build themselves up by diligent study.

Topical Study

Select a subject and trace it through the Scriptures. This kind of study is fully illustrated and accommodated in a Chain-Reference System.

Biographical Study

Study various biblical characters. This can be intensely interesting and profitable.

Book Study

Select a book and endeavor to master it. Through reading the book's introduction, ascertain its authorship, to whom it was addressed, the circumstances under which it was written, its purpose, and its main teachings. With this background firmly in your mind, embark on your reading

Verse Study

Memorize the great verses of the Bible. The memorized verse is both a defensive and offensive weapon for the Christian, readily available for the spiritual emergencies of life.
